Declaration of compliance

AkzoNobel has a company-wide commitment to manage hazardous substances in its products to ensure safe use.

In regard of the manufacturing and supply by AkzoNobel of the products mentioned above we respect and to the very best of our knowledge adhere to the applicable EU and corresponding EU Member State legislations, as all supply chain participants should do the same, including:

- all applicable obligations in the Regulation on Registration, Evaluation, Authorisation and Restriction of Chemicals (N°1907/2006 and its amendments) and the Restrictions of Reach (Annex XVII of regulation N°1907/2006 and its amendments), the Candidate List of SVCH substances; and
- all applicable obligations in the Regulation on Classification, Labelling and Packaging of Hazardous Substances (N° 1272/2008 and its Amendments).

AkzoNobel works with its relevant suppliers to ensure full supplier information in support of the above.”

Yours faithfully,

Joldert Faber
Regional Manager Product Safety & Regulatory Affairs EMEA

IMPORTANT NOTE

The information is based on the present state of our knowledge and on current laws: any person using the product for any purpose other than that specifically recommended in the technical data sheet without first obtaining written confirmation from us as to the suitability of the product for the intended purpose does so at his own risk. It is always the responsibility of the user to take all necessary steps to fulfill the demands set out in the local rules and legislation. Always read the Material Data Sheet and the Technical Data Sheet for the product. All advice we give or any statement made about the product by us (whether in this sheet or otherwise) is correct to the best of our knowledge but we have no control over the quality or the condition of the substrate or the many factors affecting the use and application of the product.
